MARKING TECHNOLOGY

PortaDot 130-30 Portable Dot Peen Marking Series

- Robust
- Reliable
- Fast
- Powerful
-

2 still motors:

- No motor cable fatigue failures
- Higher acceleration, speed and accuracy

Superior torque motors provide extreme acceleration and speed

Flat X/Y movement with no pivoting axis provides consistent marking depth throughout marking area

Re-circulating ball linear guideways to provide the highest marking accuracy

Large marking area: 130x30mm

Head cable industrial steel connector
Easily disconnect marking head when needed
Robotic head/controller cable

Robust aluminium casing: rugged design

Inbuilt illumination system automatically actuated with motion sensor

High power Electromagnetic (E version) solenoid, allowing deep marking with excellent consistency

Also available in Fast Pneumatic (FP) or High Amplitude (HA) pneumatic versions

High rigidity of front mask

- Plain & thick structure
- Machined V shaped on both axis to fit on tubes
- Sliding mechanism with positioning scale
